

Chapel View Farm & Stable

Wirehaired Pointing Griffons

PURCHASING, ORDERING and SHIPPING: Policy and Provisions
as of Feb 1, 2019

Chapel View Farms is always looking for ways to make the ordering and shipping process for our clients as seamless as possible. We have laid out the process for ordering Wirehaired Pointing Griffons from our Farm and what to expect along the way. In order to continually improve this process we encourage suggestions or improvements we can make for you.

Ordering

We are glad you chose to look to us for the new addition to your family so let us guide you through the process and we will explain to you how this works.

- 1) You may inquire about getting on the list for an upcoming litter and we can discuss which is the best option for you based on pedigree, hunt, show or family pet.
- 2) Then if you like what you have learned, and would like to take the next step, you may put a deposit down to solidify your spot for the upcoming or future litter and then we can go to the next step.
- 3) You may decide whether you would like a female or a male puppy and then depending on what discipline you would like, Hunt, Show or Family pet and what puppy might be the best fit for you and your family.
- 4) The Puppies are divided into three groups Hunt / Show / Pet - Then, based on what you are looking for in your new Griff, you will be making the selection with our help from these three groups to be certain that you will have the puppy that will be perfect for your future!

Shipping

We do and can ship puppies to most parts of the US and into Canada and Europe. 80% of our clients fly in and we can meet at the airport and the puppy can be taken back in a soft-sided kennel right in the plane with you.

Shipping Certificates from our Vets are always ready the day you arrive or the day the puppy is shipped. A full inspection of each puppy by our amazing vets is our protocol and you will have copies for your records and copies for the airlines.

We have been very fortunate to have clients drive here to Wisconsin from California, Virginia, Massachusetts, Missouri, Utah, etc, etc. All clients are always welcome to come and meet the Griffons and pick up your puppy at that time.

Shipping costs are subject to change due to airline restrictions so we will work with each client one on one to make sure all costs are determined ahead of time.

Guarantee

Each puppy will be guaranteed for a full 36 months for Hips, Eyes and Elbows. Clearances can not be performed until the puppy turns 24 months. We give the buyer a full 12 months to have their three clearances done. IF any of the three tests would prove an issue that would cause a "quality of life" issue we will replace the puppy from a subsequent litter.

A written statement from your vet on the issue would be required to activate this clause and we may or may not require a second opinion based on the findings. In the event of emergence of any genetic disorder which is sufficiently serious in the opinion of two qualified veterinarians, one of whom selected by the breeder of the dog, the breeder agrees to replace the dog with one of equivalent quality from the first available litter bred by the breeder or, at the breeder's option, Breeder strongly encourages purchaser to have the dog seen by a Veterinarian of purchaser's choice within 72 hours of picking up the dog. Said dog may be returned to the breeder for any reason within the 72 hours following purchase.

Provided that the dog has not been damaged in any way the purchaser will then be entitled to select another puppy that has NOT BEEN ALREADY DECIDED on by any other buyer. If another puppy from this litter is not to the buyer's liking after your initial selection your right of first pick will roll to the next available litter EITHER between any of the dogs bred at Chapel View Wirehaired Pointing Griffons that the breeder offers.
